Getting to Know DCA's Community Asset Mapping Tool

Tom Stanuikynas, Local Planning Services
Department of Community Affairs
Tom.Stanuikynas@dca.nj.gov

Tom Stanuikynas joins us to unlock the mysteries and demo DCA's [interactive asset mapping tool](#). Built to help facilitate opportunity zone investment and development, the tool can help users gain a better understanding of the characteristics within NJ communities. Valuable economic, local planning, environmental, workforce statistics, and land uses can be displayed along with other state special designations and incentives, some of which can be seen at the parcel level, also include community assets such as transportation, universities, power grids, hospitals, and more.

Office of the Governor -State of NJ

Deborah E. Cornavaca,
Deputy Chief of Staff for Outreach
Deborah.Cornavaca@nj.gov

Break

Building up Quality Care without Driving up Costs

Gregory Woods
Chief Innovation Officer
Office of Medicaid Innovation
NJ Division of Medical Assistance and Health Services
greg.woods@dhs.state.nj.us

Our Medicaid program serves nearly two million New Jerseyans and is vital to our state's health care system.

Our new Chief Innovation Officer is tasked with improving the quality, delivery and cost of care within the Medicaid program. This interactive presentation will touch on how this goal can be achieved and will give attendees the opportunity to share thoughts about how to define quality and value for the beneficiaries they serve. Greg has extensive experience at the Centers for Medicare and Medicaid Services working with both Medicare and other states to develop policies that support new approaches to payment and delivery.

Note: The SHA Policy Advocacy Committee will meet following the Membership Meeting.
Next Developers Group Meeting, May 13th (Raritan)
