

New Jersey Community Solar

Energy Savings for Low- and Moderate-Income Families

DRE Development Experience

- Founded in 2018, Dimension is focused on originating, developing, financing, and operating **community solar and battery storage facilities** across the U.S.
- Through our strategic partnership with **Partners Group**, a publicly listed private equity firm, Dimension is well-capitalized. We intend to **develop and own projects throughout the entire life-cycle**, from site identification and interconnection approval to commissioning and operations.
- Our team brings **unparalleled experience** and track record of success.
- A pipeline of more than **1,000 MWs representing more than 200 projects** across the country.

Community Solar and Your Electric Bill

Solar System

Utility

Customers

Subscription Agreement

Without Community Solar

Utility Electric Bill: **\$100**

Total Electric Bill: **\$100**

With Community Solar*

Utility Electric Bill: **\$20**

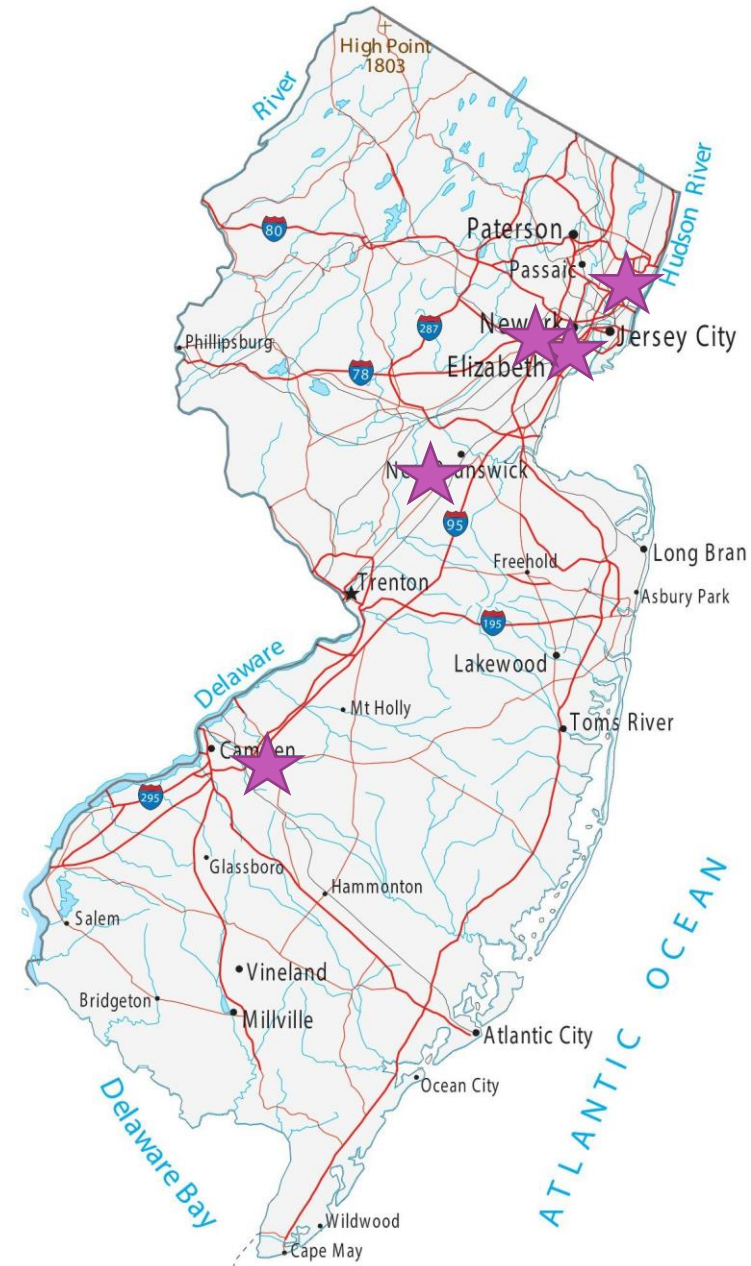

Community Solar Bill: **\$64**

Total Electric Bill: **\$84**

*\$100 Utility Bill minus \$80 Credit = \$20 Net Bill. Community solar subscribers receive a 20% discount to the \$80 credit, or \$64. The customer saves \$16 on their monthly bill.

Dimension's Projects

- Dimension's projects are located in Newark, West Caldwell, Franklin, Moorestown and Saddlebrook
- Rooftop arrays on commercial and industrial buildings
- **Project construction and subscription will start this Spring**
- More than half of subscribers will be low-to-moderate income
- Projects are true community investments through sponsorship of workforce development programs, clean energy education, and local non-profit initiatives

Timeline & Next Steps

Now is the time for education, input, and partnership development.
